

Laminou Elh Maman, WATRA

Motivation Statement

A4AI is doing a wonderful job in Africa to help people to get access to Internet and ICT services. As African, we need to support A4AI. I would to contribute in this effort through the Advisory Council.

Biography

With more than 15 years of experience within ICT sector, ELHADJI MAMAN Laminou, has a very good knowledge of this sector and its evolution. After working for government telecommunications organizations for fixed and mobile network, he moved to serve sub-regional organizations, and since 2002 has been working for the development of ICT services and infrastructure. He worked actively for the development of telecommunications infrastructure and services in the sub region.

ELH MAMAN Laminou is now the Executive Secretary of the West Africa Telecommunications Regulators Assembly (WATRA), an organization of 15 Independent National Regulatory Authorities (NRAs), working for the development and harmonization of regulations for ICT service delivery and pricing in countries in the sub-region. WATRA is working to promote the establishment of efficient, adequate, and cost-effective ICT infrastructure and services in West Africa to meet the diverse needs of customers at affordable price everywhere, including rural and under profitable areas.
